Be Involved

We value our relationships with corporate members who provide solutions to our rural hospital members. We understand that rural healthcare is a complex and unique industry. It takes special companies to work with rural and community hospitals to provide the goods and services necessary to operate in this challenging environment.

TORCH endeavors to provide its hospital members with a group of corporate members who are experienced in working with rural and community hospitals, who know the special needs of these providers and offer valuable, high-quality services.

We rely on the business leaders in our corporate membership to provide the education and information needed on the technology, equipment and new products that hospitals can partner with to become more effective.
