

TEXAS RURAL HOSPITAL VENTILATOR COUNT

Updated 4.21.20

Prepared by the Texas Organization of Rural & Community Hospitals (TORCH)

Vent count notes:

- Total Texas rural hospital ventilators (subject to change) - **666**
- These numbers compiled from various national/state data bases, TORCH survey where 1/3 hospitals responded, and spot checking with some hospitals
- Vent numbers by hospital/county vary in other data bases and many of those data bases are not current/accurate
- This vent count is vents that can be used inside the hospital to sustain a patient for some period of time
- This data does not include portable or EMS transport vents unless the hospital reports they can be used in the hospital for a period of time with an inpatient
- Some vent numbers include conversion of anesthesia and BiPAP breathing machines which can be used in an emergency surge situation
- Some hospitals previously reported lower vent #s but have rented additional vents since first reporting, and those are included here if known
- Some hospitals reporting high vent #s believe they have the ability to create multi-patient vent use or have one time use temporary vents
- Some vent #s attributed to certain counties in other data bases may include ventilators in state/federal/military facilities located in the same county which may not be accessible by local patients.
- Not all numbers in this data base have been independently verified with the hospital
- N/A means no # yet on vents but they may have some
- Beds are licensed beds and hospital may be staffed for lower bed count
- These numbers are subject to change

RURAL HOSPITAL	CAH CITY	COUNTY	COUNTY POP (2010)	BEDS	VENTS	TYPE
Christus Spohn Hospital of Alice	Alice	Jim Wells	40,838	135	8	NP
Big Bend Regional Medical Center	X Alpine	Brewster	9,232	25	3	FP
Chambers Health	X Anahuac	Chambers	35,096	14	1	HD
